

This is Ms. Susan from the Shorewood Public Library. I was really missing you and the fun times we have in ArtCart. So, I thought I would bring you some fun and creative art activities that you can enjoy from home. Try it out and you will have your own unique masterpiece to share with others at home or send it by email to friends and family as a surprise. Go ahead and spend some time working your brain, your fingers, and your silly-side. Kids of all ages can try these activities with things you have around the house. Hope to see you soon at the library or come back next week for another great activity idea.

1-Grab a piece of paper (use the back side of a page you are not using or a piece of mail your parents do not need anymore)

2-Find something in the kitchen or around the house that you can trace with a pen or pencil.

3-Trace as many as you want, in any pattern on the paper. Then you can make designs or color it, if you have markers or crayons.

4-For extra fun, find something that begins with the first letter of your name. You can even cut it up in pieces when you have finished, and give to someone in your house as a puzzle.

Have fun, be well! Ms. Susan
